SUBTERRANEAN TERMITE PRECONSTRUCTION DISCLOSURE FOR EACH ESTIMATE

For all treatments there will be a diagram showing exactly what will be treated prior to the beginning of treatment. Review the pesticide label provided to you at this time for minimum treatment standards. Remember that your architects or design engineers specifications must also be followed, unless they are in violation of the law. Review the consumer information sheet for further information. If you have any questions, contact the pest control company or the Texas Structural Pest Control Board, PO Box 1927, Austin, Texas 78767-1927. Telephone number (512) 305-8250.

Description of Structure(s)

Additional Information

Before conducting a termite preconstruction treatment, the company will present a complete diagram of the structure including construction details. When construction prevents performance of a full treatment, in accordance with a bid for full treatment, any change to a partial treatment by the company providing the treatment will be permitted if the owner of the structure or the person in charge of the construction and the certified applicator for the pest control company sign a statement attesting to the construction conditions. The agreement must be attached to the contract with an amended diagram showing the exact areas to be treated. Copies must be sent to the owner of the property and to the Structural Pest Control Board within seven days of the application.

THE SUBTERRANEAN TERMITE PRECONSTRUCTION TREATMENT BUILDERS GUIDE IS ATTACHED (SPCB/D-3).

THE BOARD APPROVED SUBTERRANEAN TERMITE PRECONSTRUCTION TREATMENT BUILDERS GUIDE MUST BE PROVIDED TO, AND SIGNED BY THE CONTRACTOR OR PURCHASER OF THE PRECONSTRUCTION TREATMENT SERVICE.

*This form includes the minimum requirements and information. It may also include or be revised to include a company logo and additional information.
